EDUCATION

Bachelor in IT *HELMo, Liège*

Sept 2018 - June 2022

WEB DEVELOPMENT

PROJECT MANAGEMENT

PROGRAMMING

CESS in Office Technician *Athénée Royal, Soumagne*

Sept 2012 - June 2018

TYPING

MAILING

EXPERIENCE

Analyst - Developer *NRB, Herstal*

Feb 2022 - May 2022

This internship allowed me to learn to analyze and compare chatbot/voicebot microservices on the cloud. Being a new subject for me, I was able to improve my research skills and my autonomy while growing in a very professional environment.

Programmer - Project Manager *SALTo (HELMo, Liège)*

Sept 2020 - June 2022

SALTo is a not-for-profit organisation at HELMo that allows the students to work together on concrete projects and with real clients while we're still in our education career. This student job allowed me to gain experience as a project manager as well as to be more autonomous in my learning process.

PROJECTS

HELMo App, mobile application Sept 2020 - Present

I worked on this application with two other students in SALTo. This is the app used by students of HELMo to have a quick and easy access to their schedule, courses, mails, etc. It is available on App Store and Play Store.

What I've learned with HELMo App:

Language: TypeScript

Framework: React-Native (Expo)

Skills learned: Managing project, deadlines, agile development

KentoLady, mobile application Sept 2021 - Present

I currently working on this application with four other students in SALTo. The goal of this project is to have your dressing on your phone (store your clothes on the app) and with that, you could have some advices on how to make a good outfit. Also, you could search for a specific outfit for an event, a birthday, etc.

What I've learned with KentoLady:

Language: TypeScript

Framework: React-Native (Expo)

Skills learned: Learn a trade, work with a bigger team

SKILLS

● Advanced ■ Intermediate ▲ Beginner

IT LANGUAGE

● HTML - CSS - JAVA

■ JAVASCRIPT - TYPESCRIPT - PHP - C# - SQL

▲ C
